

TATA HEXA CONCEPT

Tata Motors showcased a muscular and sporty concept SUV, called the Tata Hexa. An intelligent choice for an active lifestyle, the Hexa concept is an elegant and sophisticated, easy-to-drive SUV, making its world premiere of at Geneva Auto Salon 2015.

The concept unveils a new direction to the design language of future TATA SUVs.

The Hexa concept's flowing exterior lines deliver a unique exclusive appearance, for a sophisticated, modern, touring-grade SUV featuring a sculpted bonnet and sweeping roofline, coupled with large 19-inch alloy wheels.

The interiors of the Hexa concept is enveloped by luxuriously appointed leather upholstery that could seat six passengers in comfort.

Inside, smartly designed, flexible seats with soft-touch materials combine with the longest cabin in its class, to offer occupants class-leading comfort. Mood lighting adds to the ambience.

Automatic climate control, extensive sound-proofing and an audiophile grade infotainment system, add to the calm ride.

The Hexa concept is powered by an all-new 2.2 litre VARICOR 400 diesel engine with maximum output of 115 kW and 400 Nm of torque. This engine is paired with either a 6 speed manual or a 6 speed automatic transmission. For difficult terrain, a torque-on-demand all-wheel drive is available.

Occupants are ensconced in the safety of 6 airbags, Electronic Stability Control, powerful projector beam automatic headlamps and rain sensing wipers.
